

A Community-Based Health and Wellness Center Committed to Family Wellbeing And Total Wellness for All Ages

From [Rehabilitation Therapies](#) to [Adult and Child Day Care](#) to [Home Safety Solutions](#) to [Caregiver Wellness Education and Training](#), The Continuum's Staff of highly-trained professionals works together as a team to provide a wealth of treatment options suited to each individual, while satisfying the needs of families and friends.

The Continuum focuses on [Quality of Life Solutions](#), encouraging individuals to remain active in the home, family and community.

Our exceptional staff and warm, friendly environment encourage individual independence at the highest level.

The Mod Squad

Encouraging Independence at Home

The Continuum's Home Safety Team, known as The Mod Squad, specializes in home accommodation and modification services designed to reduce risk of injury while supporting independent living.

Because The Mod Squad safety installation professionals consult regularly with the therapists and staff at The Continuum, home safety solutions are specifically designed to suit the individual needs of every customer whom we serve.

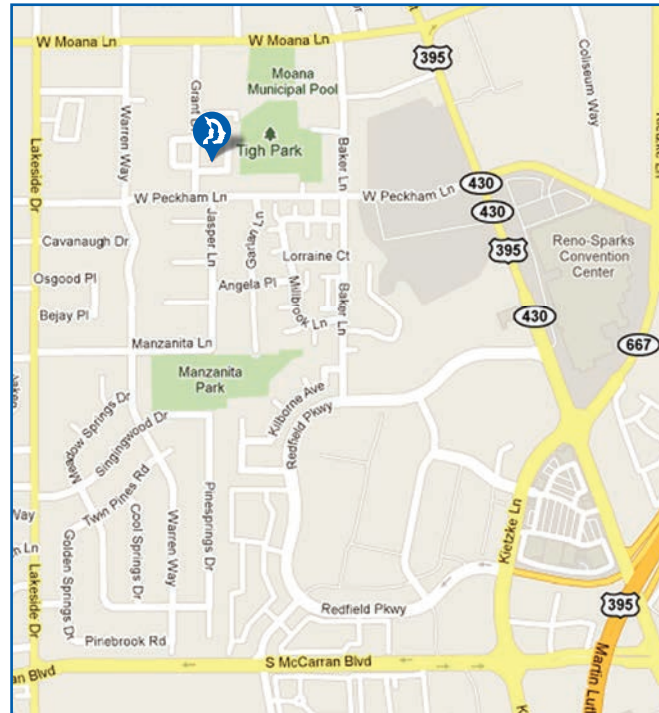

Access Assessment

Encouraging Mobility in the Community

RTC is a paratransit service for people whose disabilities or health conditions prevent them from accessing RTC Ride transit buses.

The Continuum has contracted with Reno Transportation Commission (RTC) to assess citizens who opt to utilize RTC's enhanced mobility ACCESS service.

Those wishing to apply for RTC ACCESS service should contact RTC at 775-335-1903 to learn about the assessment process.

Rehabilitation Therapies

Our Total Team Approach

Every Client at The Continuum receives an individualized evaluation, leading to differential diagnosis and a personalized plan of treatment.

The Continuum works closely with physicians, therapists, educators and case managers so that treatment strategies are properly integrated with other client programs. By integrating rehabilitation into every aspect of the client's life, we work together.

Most importantly, we believe that it's not only about receiving the most effective therapies, but also about how that treatment process is conducted. At The Continuum we Respect, Encourage, Empower and Celebrate.

Speech Therapy

Our impressive range of varying levels of Speech and Communication Programs includes comprehensive therapies for both adults and children.

The Continuum's experienced professional Speech Therapists hold Masters Degrees along with the highly-regarded Certificate of Clinical Competence from the American Speech-Language-Hearing Association.

We remain actively engaged in Speech-Language continuing education to remain at the forefront of new advancements in the fields of Speech and Language Pathology and Swallowing Disorders.

Physical Therapy

Ongoing education, training and experience are the cornerstones of our therapeutic intervention when mobility and functional capabilities are compromised.

Physical Therapists at The Continuum have years of experience representative of their dedication to helping those who have experienced loss of mobility and function and, as a result, independence. Our services span all ages, from pediatric treatments to therapies suited to seniors.

Occupational Therapy

Highly skilled professionals with strong backgrounds and training in human growth and development place special emphasis on social, emotional and physiological disabilities.

The Occupational Therapists at The Continuum work with clients to enable and encourage participation to alleviate impairments or limitations in physical or mental functions. Occupational Therapy helps improve quality of life one day at a time.

Early Intervention Services

Recognizing the importance of the first three years of a child's life, The Continuum has contracted with the State of Nevada to provide Early Intervention Service. In fact, we are one of only two facilities in Northern Nevada who are Community Partners with Nevada Early Intervention Services.

The goal of our Program is to provide services to infants and toddlers who demonstrate developmental delays or who have been diagnosed with special challenges. Our **Developmental Specialists, Therapists and Consultants** work closely with families and community resources. **These children may also take advantage of Carousel, our infant & toddler preschool program, with daily carryover of behaviors and skills by our specially trained teachers on campus.**

Intergenerational Day Programs

A Nurturing Family Environment

Our Adult and Child Day Programs feature an intergenerational approach that is reminiscent of the feeling of family.

We believe that when children are comfortable, they learn, and when elders are loved, they thrive.

ReGenerations Adult Day Club

ReGenerations Adult Day Club provides a daytime alternative for senior adults in need of a supportive environment like that found at The Continuum. We strive to restore functional independence based upon individual needs, while maintaining capabilities in a socially stimulating atmosphere.

Our unique facility allows for continuing treatment therapies without leaving the comfort of The Continuum's pleasant surroundings and nurturing staff.

Carousel Learning Center

Carousel at The Continuum is a unique preschool program that offers a high quality learning experience for infants, toddlers and preschoolers, including those with special needs.

Our staff of professionals is trained not only in Child Development, but also Special Education and Psychology, and encourages a positive and nurturing learning environment that stimulates emotional, physical and cognitive growth while celebrating diversity.
